

LIVE CONFERENCE ON ULTRASOUND IN ENDOMETRIOSIS

WITH LIVE LAPAROSCOPIC SURGERY ON DEMAND FROM THE OPERATING ROOM AND TRANSVAGINAL SCANNING (THE WHOLE SPECTRUM OF FINDINGS)

Negrar, 29 Ottobre 2021

Ospedale Sacro Cuore - Don Calabria, Via Don A. Sempreboni, 5 – 37024 Negrar (Verona)

Course Directors

Marcello Ceccaroni, Negrar

Luca Savelli, Forlì

RATIONAL

In the last two decades, transvaginal ultrasound has consolidated its role in modern gynecological diagnostics, so much so that it has become an irreplaceable tool in the management of numerous pathological conditions. In the field of endometriosis, transvaginal ultrasound has radically revolutionized the diagnostic process and management of patients, allowing for an accurate, early, economical and non-invasive diagnosis.

We wanted to organize this course by organizing a complete program on a topic of great interest, combining the skills and experience of specialists who for years have distinguished themselves for great clinical experience and communication skills.

The theoretical course will be enriched by the transmission of live ultrasound examinations and live laparoscopic surgery sessions from the hospital operating rooms, in order to compare the ultrasound aspects with the anatomical ones.

PROGRAM HIGHLIGHTS

09.00 – 09.30	Introduction L. Savelli (Forlì), M. Ceccaroni (Negrar)
09.30 – 10.00	Normal pelvic anatomy: sonographic features of bladder, ureters, parametria, rectum, rectovaginal septum, uterosacral ligaments (M.C.Scifo)
10.00 – 10.30	Sonographic features of Deep Infiltrating Endometriosis (DIE) of the bowel (E.Fontana)
10.30 – 11.00	How to diagnose parametrial endometriosis (C. Zorzi)
11.00 – 11.15	Coffe Break
11.15 – 11.45	Sonographic features of Deep Infiltrating Endometriosis (DIE) of the anterior compartment including ureters (L. Savelli)
11.45 – 12.15	Different features of uterine adenomyosis (M.Albanese)
12.15 – 12.45	How to access to the retroperitoneum , and open spaces at laparoscopy (G.Roviglione)

- 12.45 – 13.15 How to isolate the ureters and perform **ureterolysis** (R.Clarizia)
- 13.15- 13-45 Evidence-based management of endometriotic ovarian cysts - (L.Valentin)
- 13.45 – 14.00 Discussion
- 14.00 . 15.00 Luch
- Whole day laparoscopic Surgical Anatomy of the pelvic viscera and retroperitoneum for tackling Deep Endometriosis – Live surgery (M.Ceccaroni)
- 15.00-18.00 **LIVE SCANNING:** the whole spectrum of findings. Expert tips and tricks revealed
